

## **BSI Low Power SRAM \_ 4M(512Kx8) Tsop2-32 Product Last order and End of Life (EOL) Notice**

Thanks for choosing Brilliance Semiconductor, Inc. (BSI) as your low power SRAM supplier. In order to make the business more effective and efficient, BSI has made the decision to stop producing 4M (512kx8) Tsop2-32 product. Please migrate your current projects including projects that are currently in qualification to other package types. BSI will continue to support it. The effecting part numbers list as following and the effective date is January 1st, 2011:

Part Number

BS62LV4006ECP70

BS62LV4006ECP55

BS62LV4006EIP70

BS62LV4006EIP55

BS62LV4006ECG70

BS62LV4006ECG55

BS62LV4006EIG70

BS62LV4006EIG55

The last order for current part numbers should be received before April 1st, 2011 and the last shipment will be delivered before June 30, 2011. We will do our best to meet customer's request, however, BSI reserves the right to refuse the order quantity and/or request dates.

Please feel free to contact BSI or your BSI franchised distributor with questions, comments or concerns with regards to this notice. Thank you!
